

BONALDO

Combination

Designer: Alain Gilles

The union of the circle, rectangle and half sphere creates an object whose perception and interpretation vary according to observer's point of view. Combination is in all respects an element that is always original, with a variable character: when seen from the front, the rectangular element looks

very wide; the same element, when observed from the side, on the other hand, appears to be extremely slender. Combination is a coffee table available in two different heights and in numerous painted metal finishes: among them, the elegant bronze, lead, pearl gold and platinum shades.
