

Designer Giuseppe Bavuso, year 2017

The art of carpentry is fully expressed in the play of horizontal and vertical grains that forms the structure of the table. The precious marble top and woodwork provide truly Italian elegance. The thickness of the frame turns Convivio into an 'impressive' item of furniture that plays the starring role in the dining room while encouraging sociability.

Convivio

Frame in solid painted ash or in solid italian walnut. Top in marble.
