

Designer Giuseppe Bavuso, year 2017

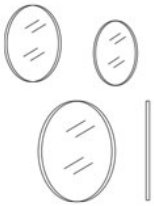

The perfection of circles of various sizes is accentuated by a halo of light, which reflects the style of the surrounding area. The Face To Face mirror adds a personal touch to the home environment, playing a significant decorative role while enhancing the perception of space. The round painted stainless steel frame is fitted with LED lighting on the back of the frame for a bright, luminous effect.

Face to face

Mirror with structure in lacquered MDF, 19 mm. thickness and frame in painted steel. Back with smart LED lighting compatible with Alexa and Google Home.

Technical sheet

Specchio.
Mirror.
