

BONALDO

Pisa

Designer: Mauro Lipparini

The Pisa coffee tables, designed by Mauro Lipparini, are furnishing accessories with a strong character, thanks to the monolithic design of their bases. Available in the single block version with a recessed or hat-like top, the signature feature is the angle of the base which leans diagonally

like the tower after which they are named. Metal, used for the base, is the common thread running through the collection: the coffee table assumes its own identity based on the material used for the top, available in ceramic, glass, marble or metal in the same finish as the base.
