

BONALDO

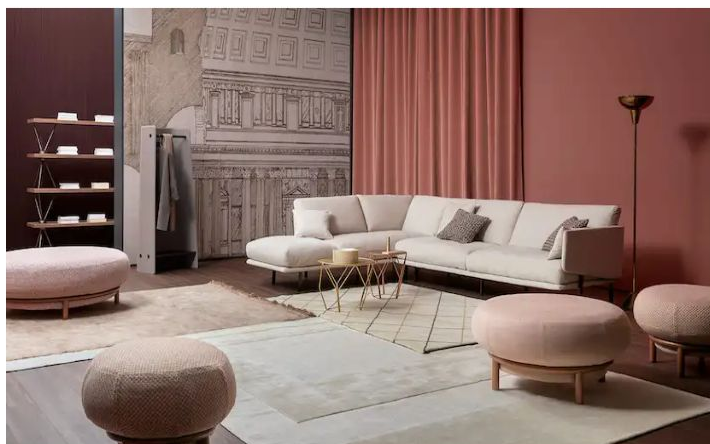

Bonsai

Designer: **Paolo Grasselli**

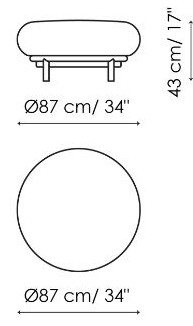

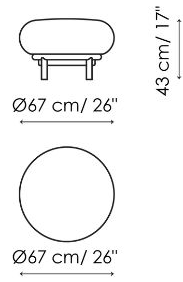

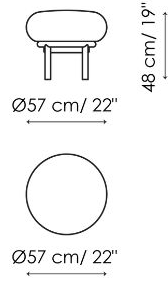

In the ancient botanical art of bonsai, a tree trunk of considerable dimensions supports and interacts with an artfully shaped canopy. Similarly, Bonsai round footstools are the result of a quest to harmonise the volumes of the padding and the size of the frames. An essential metallic tubular frame with a wide section welcomes and supports a comfortable seat with soft and rounded shapes, which highlights the

choice of the fabric or leather used for the upholstery. Available in four different sizes and heights, each of the Bonsai poufs can be chosen as a unique piece or combined in groups, freely combining multiple elements in the living area, the bedroom or in areas of hotels or public spaces intended for reception purposes.
