

fade dining table structure

design Marco Gregori

STRUTTURA/STRUCTURE

PE - Polietilene/Polyethylene
colore base/basic colour

.....

.....

6465

S4 T9 U0 U4

GROSS WEIGHT:

kg 6,1

ACCESSORIES:

A4461

Kit fissaggio a terra/
Ground fixing kit only

A4601

Kit sabbia essicata/
Dried sand kit

TESTS

Test carried out in the laboratory

Attention to ensure stability under a vertical pressure, the part must be stabilized according to point 7.2 of EN 1730:2012. To do this, inert material (es. dried sand) must be poured into the hole at the bottom of the base. The amount of the material will vary according to the article:

art. A4490 - A4491 Ø70 cm - kg 9
 art. A4494 - A4495 Ø80 cm - kg 12
 art. A4488 - A4489 70x70 cm - kg 15
 art. A4492 - A4493 80x80 cm - kg 27

Alternatively it is necessary to apply the stabilization base Ø 51 cm (A4197 or A4194) on the bottom of the plastic product without introducing inert material (dried sand).

Finally, close the hole by screwing the threaded cap back on.
