

Kalia

Design: A Design Studio, 2012

A modern and sleek personality with an extremely luxurious look: that is Kalia by Leolux. The table offers you all the space you need for extensive dining with friends or family, as the biggest Kalia version is some 280 centimetres! The frame is available in epoxy and lacquered colours to give your table the perfect finishing touch. And for the table top you can choose from various wood options and the particularly practical Fenix.
